# Contour Plus Cushion order form

The **Contour Plus Cushion** was designed with the purpose to create a solution of personalized positioning of the pelvis and lower member of each user.

Characteristics: Composed by a water-expanded, fire-retardant and hydrophobic polyurethane foam, mechanically milled.

It has anti-bedsore properties as it reduces pressure by around 43%. It has two layers of viscoelastic evenly distributed evenly over the surface of the cushion. Includes: inner waterproof cover and black outer cover, side support plates, base with adhesive fabric.

Option: Cushion Sizes
Standard Cushion:
